
Procrustes disparity against the mixture simplex vs. query-set composition
OLMo-2-1B-Instruct · ONE fixed 16-adapter yahoo simplex · 100-row probe · behavioral: greedy, R=1 deterministic
0 = identical shape · band = IQR over 10 draw seeds · yahoo component unstratified, so the 100% point is not the canonical probe
diluted with dolly (en, instructions)
diluted with oasst1-zh (zh, conversation)
